OIOUBL Version 2.1

Marts 2022

## Indholdsfortegnelse

1. Indledning.....	3
2. Identifikation .....	4
3. Værdier .....	4

# 1. Indledning

En kodeliste er en oversigt over, hvilke gyldige værdier et givet felt i OIOUBL må have. Kodelisterne bruges i vid udstrækning i OIOUBL. Dels for at gøre det enklere for brugene at udfylde felterne ud fra en liste af valgmuligheder, og dels for at sikre en ensartet brug af felterne, og dermed muligheden for at der kan laves kontrol af og stødes logik på felterne i de enkelte systemer. Målet er således at opnå fuld automatisk behandling af fremsendte data og dermed mindske behovet for manuelle arbejdsgange. OIOUBL opererer med fire typer af koder:

1. Statiske koder, der er indlejret i standarden.

Det drejer sig om mængdeenheder (UOM), valutakoder, sprogkoder og mimetyper, som valideres i UBL 2.1 skemaet. Værdierne fra disse kodelister angives i attributter, og skal relateres til værdien i feltet.

2. Offentlige kendte koder, der kan opdateres, F.eks. kan ISO 4217, som er valutakode.

3. OIOUBL definerede koder, der kan opdateres.

Til den danske OIOUBL tilpasning er der udarbejdet en række kodelister.

OIOUBL kodelister identificeres ved en urn, og refereres til fra attributterne af de pågældende felter. Ud fra Id'et er det muligt at se, hvilken type kodeliste der er tale om.

4. Bilateralt aftalte koder.

To parter kan internt aftale at udveksle et bestemt kodesæt. Her definerer parterne deres egen kodeliste.

## 2. Identifikation

<b>Identifikation</b>	urn:fdc:oioubl.dk:2020:erst:structure:EnvironmentalCode
<b>Kortnavn</b>	EnvironmentalCode
<b>Beskrivelse</b>	EnvironmentalCode for Denmark
<b>Version</b>	1.1
<b>Sidst opdateret</b>	10-03-2022 (GS1 udgivelsesdato december 2021)

## 3. Værdier

Indholdet i denne liste bygger på indhold fra GS1 kodeliste for PackagingMarkedLabelCodeList

Værdi	Navn	Beskrivelse
100_PERCENT_CANADIAN_MILK	Origin	The use of a "100% Canadian Milk" or "100% Canadian Dairy" claim, with or without logos, vignettes etc., when used on dairy products, indicates all of the dairy ingredients in the product are derived from Canadian sources.
100_PERCENT_VEGANSKT	Animal Welfare, Vegan	100% Veganskt (Vegan) is certified by Djurens RÅtt (Animal rights) and shows that the product does not contain animal ingredients.
3PMSF	Quality, Safety	A three-peak mountain snowflake (3PMSF) symbol branded on a tire's sidewall indicates the tire meets required performance criteria in snow testing to be considered severe snow service-rated. Originally used as a designation for winter tires, the 3PMSF symbol is now featured on some all-season and all-terrain tires with snow performance that meets the testing criteria. (UNECE Regulation 117, (EC) 661/2009)
ACMI	Safety	The Art and Creative Materials Institute, Inc. (ACMI) is an international association of about 200 art, craft and creative material manufacturers which seeks to promote safety in art and creative products through its certification program. The ACMI program certifies a broad range of art materials, ensuring that they are non-toxic (AP Seal) or carry appropriate health warning labels (CL Seal) where necessary. ACMI-certified product seals (AP Approved Product and CL Cautionary Labeling) indicate that these products have been evaluated by a qualified toxicologist and are labeled in accordance with federal and state laws. Each product in the program undergoes extensive toxicological testing that covers both acute and chronic toxicity concerns before it is granted the right to bear the ACMI certification seal.
ADCCPA	Organic	The ADCCPA is a non-profit association established in 1995, for the development of food product conformity certification. It manages the "CQ -

		Certified Product" logo, identifying the Product Conformance Certification (CCP) approach.
AFIA_PET_FOOD_FACILITY	Conformance, Animal Welfare	AFIA Pet Food Ingredient Facility Certification Program is launched by the American Feed Industry Association and administered by the Safe Quality Food Institute (SQFI). The program builds upon the domestic Safe Feed/Safe Food program, but is designed to meet the safety issues specifically related to the manufacturing of pet food.
AGENCE_BIO	Organic	The BIO Agency is a public interest group whose mission is to develop and promote organic agriculture.
AGRI_CONFIANCE	Agriculture	Where do the food products come from? How and by whom are they produced? Are they respectful of the environment? It is to answer all these questions that Agri Confiance® was created in 1992. A collective approach of the producers organized in cooperative, engaged for a sustainable agriculture and for each one of us. A controlled engagement. An ambition. A movement. For there to be trust between us.
AGRI_NATURA	Animal Welfare, Natural	Certification for meat out of integrated production based on principles of IP-Suisse. Label owned by Ernst Sutter AG.
AGRICULTURE_BIOLOGIQUE	Organic	France's national logo for organic products since 1985. Organic products carrying the logo must contain more than 95 percent organic components and be produced or processed within the EU, and were certified by one of the inspection bodies accredited according to EN 45011.
AHAM	Sustainability	The Association of Home Appliance Manufacturers (AHAM) is an organization that verifies the volume, energy and in some cases, performance, of many common household appliances. Since 1967, we've used outside laboratories to test products, and today you'll find the AHAM Verified Mark on all products included in our program "making comparing products easier for you"
AISE	Conformance	A.I.S.E., the international Association for Soaps, Detergents and Maintenance Products is the official representative body of this industry in Europe.
AISE_2005	Sustainability	The International Association for Soaps, Detergents and Maintenance Products: This Charter logo on a product means that the company placing this product on the market is committed to the industry Charter for Sustainable Cleaning, and that the company has successfully complied with the Charter Sustainability Procedures. Consumers and professional users who see this logo on a product can be assured that the company making this product is voluntarily committed to delivering continual improvements in safety, environmental friendliness and other key aspects of sustainability.

		Only those companies that have signed up to the Charter, and meet the licensing conditions, are permitted to use it.
AISE_2010	Sustainability	The International Association for Soaps, Detergents and Maintenance Products This logo will certify that the company which manufactured the product is following Charter update 2010 sustainability principles.
AISE_2020_BRAND	Sustainability	The new mark certifies that your brand meets all Charter product sustainability standards, in addition to the manufacturing requirements (ISO 14025 standard for Type III environmental labels and declarations).
AISE_2020_COMPANY	Sustainability	This new mark certifies that your organisation meets the Charter company sustainability standards in their manufacturing facilities (ISO 14025 standard for Type III environmental labels and declarations).
AKC_PEACH_KOSHER	Diet	Atlanta Kashrus Commission Certification
ALENTEJO_SUSTAINABILITY_PROGRAMME	Sustainability	The purpose of the WASP (Wines of Alentejo Sustainability Programme) is to align the sector's competitiveness with environmental, economic and social objectives, thus creating opportunities based on an integrated and sustainably oriented strategy. The certification of sustainable wine production is the guarantee that an independent evaluation, by a third party credentialed according to the Portuguese Quality System, confirms that good sustainability practices have been implemented. It is an important source of information to assess, guarantee and improve the environmental and socio-economic conditions of the industry.
ALIMENTATION_DU_TOUT_PETIT	Conformance	The "childhood food" symbol guarantees that the product complies with French and European regulatory requirements. In addition to perfectly meeting the special nutritional needs of children from birth to 3 years old, the product meets very strict safety standards. Ingredient quality, strict monitoring of contaminants and microbiological risks, packaging composition... my child's meal is combed through to make sure everything is fine.
ALIMENTS_BIO_PREPARES_AU_QUEBEC	Organic	The presence of Quebec Bio Food prepared on a product means that it is composed of minimally 85% of Quebec organic products. The processing and packaging of these foods must also be made in Québec
ALIMENTS_DU_QUEBEC	Organic	Aliments du Québec is an organization whose mission is to promote Quebec agri-food products. Promotional activities, brand identification at the points-of-sale and special events are all ways to inform consumers about the availability of Quebec food products Aliments du Québec is the holder of the unique label of origin for Quebec food products, recognized by the whole agri-food

		industry, we manage two certifications: Aliments du Qu�bec and Aliments pr�par�s au Qu�bec.
ALIMENTS_DU_QUEBEC_BIO	Organic	The presence of Quebec organic Food on a product means that it is entirely made from ingredients sourced in Quebec and composed of minimally 85% of Quebec organic products.
ALIMENTS_PREPARES_AU_QUEBEC	Organic	Any product processed and packaged entirely in Quebec can be considered an "Aliments pr�par�s au Qu�bec". When the main ingredients are available in Quebec in sufficient quantities, they must be used.
ALPINAVERA	Origin	Certification for products with regional provenance of the Swiss regions Graub�nden, Uri, Glarus and Tessin.
ALUMINIUM_GESAMTVERBAND_DER_ALUMINIUMINDUSTRIE	Recycling	The packaging is recyclable aluminium by Gesamtverband der Aluminiumindustrie.
AMA_GENUSSREGION	Origin	AMA GENUSSREGION is a protected umbrella brand from the Austrian Federal Ministry of Agriculture, Regions and Tourism and the Agrarmarkt Austria Marketing GesmbH which certifies the regional provenance and quality of Austrian food products.
AMA_ORGANIC_SEAL	Origin	Austria Ministry of Agriculture Organic Label, AMA Marketing licenses the AMA organic logo. Red, white and black indicates the majority of ingredients are of Austrian origin.
AMA_ORGANIC_SEAL_BLACK	Organic	AMA Assurance Organic products with a national origin are uniformly marked with the black AMA organic label without indication of origin.
AMA_SEAL_OF_APPROVAL	Origin	The AMA quality label ensures independent controls and stands for conventionally produced foods that meet exceptional quality criteria and whose origin is traceable.
AMERICAN_DENTAL_ASSOCIATION	Conformance	The American Dental Association's (ADA) Seal of Acceptance is a trusted symbol of a dental product's safety and effectiveness. In order to earn the Seal, manufacturers must supply objective data from clinical and/or laboratory studies that support the product's safety, effectiveness, and promotional claims.
AMERICAN_HEART_ASSOCIATION_CERTIFIED	Conformance	The American Heart Association Certified attribute includes all products that have published the symbol by Heart-Check Food Certification Program on their packaging.
ANIMAL_WELFARE_APPROVED_GRASSFED	Animal Welfare	Guarantees the meat comes from an animal raised entirely outdoors on pasture, and fed a 100-percent grass and forage diet.
AOP	Origin	For products with an AOP (Appellation d�origine Prot�g�e), everything from the raw material for processing to the end product comes from a clearly defined region of origin. AOP is a quality mark protected by Swiss law, e.g. Emmentaler AOP. After registration by the Swiss Federal Office for Agriculture, the protected designation may only be

		used for products that meets the origin, process and quality requirements of the specifications. Independent certification bodies monitor their compliance.
APPELLATION_ORIGINE_CONTROLEE	Agriculture	The registered designation of origin (AOC) is a label allowing to identify a product whose manufacturing stages (production and processing) are carried out in the same geographical area and according to recognized know-how. It is the combination of a physical and biological environment with a traditional human community which bases the specificity of an AOC product, with definition in a specification. The French AOC is an official French label that meets the criteria of the European Protected Designation of Origin (PDO). In France, since 2012, for products other than wine, the term AOC is replaced by AOP as soon as the product is registered at the European level.
APPROVED_BY_ASTHMA_AND_ALLERGY_ASSOC	Allergies	The Association's recommendation of products should be seen as a guide for the consumer in the search for products that are good from an allergy point of view. Since the mid-1970s, the Asthma and Allergy Association has developed its business for product recommendations.
AQUA_GAP	Sustainability	Certification programme for sustainable aquaculture.
AQUACULTURE_STEWARDSHIP_COUNCIL	Sustainability	The Aquaculture Stewardship Council ASC certification and labelling programme for responsibly farmed seafood. A global organisation working with aquaculture producers, seafood processors, retail and foodservice companies, scientists, conservation groups and the public to promote the best environmental and social choice in seafood. The ASC's aquaculture certification programme and seafood label will recognise and reward responsible aquaculture.
ARGE_GENTECHNIK_FREI	Genetically Modified Free	ARGE logo stands for the production of food without genetically modified additives.
ARGENCERT	Organic	Argencert guarantees the organic quality of a product from its origin to the final result, certifying both raw and processed products and the compatibility assessment of inputs.
ARLA_FARMER_OWNED	Origin	The FARMER OWNED marque has been develop to use on pack on all Arla branded products. FARMER OWNED represents the fact that Arla Foods is 100% owned by farmers. The FARMER OWNED marque is implemented on Arla branded assortment across all markets. The Farmer Owned marque is owned and administered by Arla Foods.
ASCO	Organic	Agricultural Services Certified Organic, LLC provides quality, express and economical organic certification services as established by the National

		Organic Program that meets the individualized needs of our clients in the global market place
ASMI	Origin	ASMI The Alaska Seafood Marketing Institute is a marketing organization with the mission of increasing the economic value of the Alaska seafood resource through: <ul style="list-style-type: none"> <li>Increasing the positive awareness of the Alaska Seafood brand;</li> <li>Quality assurance, technical industry analysis, education, advocacy and research.</li> </ul>
ASTHMA_AND_ALLERGY_FOUNDATION_OF_AMERICA	Allergies	The Asthma and Allergy Foundation of America (AAFA), a not-for-profit organization founded in 1953, is the leading patient organization for people with asthma and allergies, and the oldest asthma and allergy patient group in the world.
ATG	Conformance	If there is no BENOR-mark for a specific material, then the manufacturers can ask for a technical approval by BUtgb (Belgian Union for technical approval in the construction). This technical approval (ATG) provides a technical advice, including a description and the technical characteristics. An ATG is a favourable review of one particular building product of one manufacturer for a particular application. It's all about systems, innovative products and products that contain multiple components.
AUS_KAUP_ESTONIA	Origin	Used to specify Estonia Meat in their product. Eesti Liha- ja Tulejate Assotsiatsioon
AUSTRALIAN_CERTIFIED_ORGANIC	Organic	Australian Certified Organic (ACO) is Australia's largest certifier for organic and biodynamic produce and has over 1500 operators within its certification system. ACO provides certification services to operators from all sectors of the organic industry. Certification ensures compliance with national production standards and allows trace back of all products to their origin.
AUSTRIA_BIO_GARANTIE	Organic	Austria Bio Garantie GMBH (ABG) is Austria's leading inspection body. It conducts inspections throughout Austria at all levels of the organic production chain (farmers-processors-traders-import/export) as well as in different foreign countries.
AUSTRIAN_ECO_LABEL	Sustainability	The Austrian Eco Label guarantees environment-friendly products and services.
BCARA_ORGANIC	Organic	BCARA is accredited by the Canadian Food Inspection Agency (CFIA) as a certification body that certifies organic products under the Canada Organic Regime. Products certified under the Canada Organic Regime can be sold inter-provincially and internationally to countries that have equivalency agreements with Canada. The Organic Products Regulations require mandatory certification to the current National Organic Standard for agricultural products represented as organic in international

		and inter-provincial trade, or that bear the federal organic agricultural product legend (or federal logo).
BDIH_LOGO	Conformance	BDIH Germany guidelines for Certified Natural Cosmetics
BEBAT	Recycling	BEBAT is a non-profit organization, founded in 1995 under a Belgian law on environmental taxes. BEBAT gives a new life to batteries and flashlights! We do that by sorting and recycling. The federal government and the regional authorities are working with us.
BEDRE_DYREVELFAERD_1HEART	Animal Welfare	The government animal-welfare label will initially be for pork, but it will later be expanded to cover meat from other animals. Examples of animal welfare for this marking include free-range sows, curly tail/undocked tail, more straw, more space, max. 8 hoursâ€™ transport.
BEDRE_DYREVELFAERD_2HEART	Animal Welfare	The government animal-welfare label will initially be for pork, but it will later be expanded to cover meat from other animals. Examples of animal welfare include free-range sows, curly tail/undocked tail, even more straw, even more space, max. 8 hoursâ€™ transport.
BEDRE_DYREVELFAERD_3HEART	Animal Welfare	The government animal-welfare label will initially be for pork, but it will later be expanded to cover meat from other animals. Examples of animal welfare for this marking include free-range sows, curly tail/undocked tail, much more straw, much more Space, max. 8 hoursâ€™ transport, outdoor space, access to open fields.
BEE_FRIENDLY	Animal Welfare	The goal of the bee friendly label is to promote the agricultural technics which are not harmful to bee and other pollinators.
BELGAQUA	Conformance	Belgaqua is the Belgian Federation for the Water Sector, and verifies the conformity of devices connected to the water supply at the request of the manufacturer or the importer, and is responsible for the inspection of protections against back blends.
BENOR	Conformance	BENOR stands for BELgian NORm and points out that a product is according to Belgian standards. Is mainly used for traditional building materials such as steel, concrete, tile, brick, floor tiles and other concrete products, indicated by the abbreviation NBN. Mainly for building materials in road construction.
BERCHTESGADENER_LAND	Origin	The regional seal "Berchtesgadener Land" approved regional origin and quality of organically and conventionally produced agricultural products and services in the region of Berchtesgaden. The award criteria go in terms of the origin and support of genetic engineering ban partially beyond legal requirements.

BEST_AQUACULTURE_PRACTICES	Sustainability	The Best Aquaculture Practices Certified (BAP Certified) mark on retail packaging tells consumers that seafood came from BAP certified aquaculture facilities. The Best Aquaculture Practices standards, developed by the Global Aquaculture Alliance, form the basis for BAP certification. The standards specifically protect biodiversity and worker rights within a program that addresses environmental, social, food safety and traceability issues throughout producers' operations.
BEST_AQUACULTURE_PRACTICES_2_STAR	Sustainability	2 Star BAP accreditation. The BAP program is the world's most comprehensive third-party certification system for aquaculture facilities, addressing every key element of responsible aquaculture, including environmental responsibility, social responsibility, food safety, animal welfare, traceability and more. BAP standards encompassing the entire aquaculture production chain, including farms, processing plants, hatcheries and feed mills.
BEST_AQUACULTURE_PRACTICES_3_STAR	Sustainability	3 Star BAP accreditation. The BAP program is the world's most comprehensive third-party certification system for aquaculture facilities, addressing every key element of responsible aquaculture, including environmental responsibility, social responsibility, food safety, animal welfare, traceability and more. BAP standards encompassing the entire aquaculture production chain, including farms, processing plants, hatcheries and feed mills.
BEST_AQUACULTURE_PRACTICES_4_STAR	Sustainability	4 Star BAP accreditation. The BAP program is the world's most comprehensive third-party certification system for aquaculture facilities, addressing every key element of responsible aquaculture, including environmental responsibility, social responsibility, food safety, animal welfare, traceability and more. BAP standards encompassing the entire aquaculture production chain, including farms, processing plants, hatcheries and feed mills.
BETER_LEVEN_1_STER	Animal Welfare	The one-star Beter Leven (better life) mark indicates that the product comes from a company that cares that animals are kept according to the minimal requirements for sanitation and well-being for the cattle industry.
BETER_LEVEN_2_STER	Animal Welfare	The two-star Beter Leven (better life) mark indicates that the product comes from a company that provides for a higher well-being of animals than that established by the minimal requirements for sanitation and well-being for the cattle industry, yet the conditions are inferior to those of Biological class products.
BETER_LEVEN_3_STER	Animal Welfare	The three-star Beter Leven (better life) mark is awarded to products that come from companies that excel in keeping animals according to top guidelines for Biological-class products. In some

		cases this mark is accompanied by an EKO indication.
BETTER_BUSINESS_BUREAU_ACCREDITED	Working Conditions	If a business has been accredited by the BBB, it means BBB has determined that the business meets accreditation standards, which include a commitment to make a good faith effort to resolve any consumer complaints. BBB accredited businesses pay a fee for accreditation review and monitoring for continued compliance and for support of BBB services to the public. BBB Code of Business Practices represents standards for business accreditation by BBB. Businesses based in the United States and Canada that meet these standards and complete all application procedures will be accredited by BBB. The Code is built on the BBB Standards for Trust, eight principles that summarize important elements of creating and maintaining trust in business.
BETTER_COTTON_INITIATIVE	Sustainability	The Better Cotton Initiative (BCI) is a not-for-profit organisation stewarding the global standards for Better Cotton, and bringing together cotton's complex supply chain, from the farmers to the retailers. BCI exists to make global cotton production better for the people who produce it, better for the environment it grows in and better for the sector's future, by developing Better Cotton as a sustainable mainstream commodity.
BEVEG	Vegan	BeVeg is a global vegan network that brings legal credibility to vegan claims, which inherently raises the standard of consumer transparency. BeVeg is ISO accredited and recognized by the world accreditation forum for its internationally accredited vegan standard. BeVeg is accredited under ISO 17065 as a published vegan standard for vegan conformity assessment. <a href="https://www.beveg.com/">https://www.beveg.com/</a>
BEWUSST_TIROL	Origin	BEWUSST TIROL is a seal of quality marking food from the Tyrol. The "Awareness Tyrol" project promotes the use of local food in the hotel industry and gastronomy and thus strengthens the cooperation between tourism and agriculture. The participating companies are honoured for their high use of domestic products.
BEWUSTE_KEUZE	Diet	Identifies non-staple or non-essential products (e.g. soup, candy, desserts, etc.) that offer more nutritional value or less contain less of potentially harmful ingredients (such as sugar, salt, fat) in comparison to similar items according to the guidelines of the Dutch Wetenschappelijke Commissie.
BIKO_TIROL	Genetically Modified Free	BIKO TYROL covers Genetically Modified-free milk production, AMA seal, quality Tyrol and beef labelling are controlled and certified. The Biko Tyrol

		operates in accordance with EN 45011 and is an accredited certification body.
BIO_AUSTRIA_LABEL	Organic	Bio Austria is the Austrian Bio-network of Eastern organic farmers. Created from the former Association Harvest for Life
BIO_BAYERN_WITH_CERTIFICATE_PROVENANCE	Agriculture	In cases in which the products of a certain provenance (e.g. Bavaria) made according to the higher quality criteria can be tracked along the whole path from their production, via their processing, all the way to the shop counter, they can be given a biolabel stating the corresponding indication of geographical origin. In this case the origin is presented both in the form of a corresponding logo as well as the colours of the state of origin in the inner oval. The biolabel with the certificate of origin awarded by the Free State of Bavaria stands for products and services over and beyond the statutory standards a three-tier control system a full certificate of origin
BIO_BAYERN_WITHOUT_CERTIFICATE_PROVENANCE	Agriculture	The biolabel awarded by the Free State of Bavaria offers companies in the farming and food sector in the European Union the opportunity to label goods produced in compliance with the terms of the EU-Eco Regulation in combination with higher quality criteria. The precisely defined regulations are a guarantee for the consumers of an economic system in harmony with nature and provide them with guidance when making their purchases. Both the farmers of organic products as well as the producers must fulfil the demanding inspection criteria and allow their products to be checked by state-approved and monitored inspection boards. The defined control system ensures a complete traceability of the products over the entire lifecycle. The biolabel awarded by the Free State of Bavaria stands for products and services over and beyond the statutory standards a three-tier control system
BIO_BUD_SEAL	Organic	Fully organic, with more than 10% of raw materials imported but subject to equivalent organic standards.
BIO_BUD_SEAL_TRANSITION	Organic, Origin	Fully organic, with more than 10% of raw materials imported but subject to equivalent organic standards. Produced within the 2 years period in which the producer is converting to fully organic farming.
BIO_CZECH_LABEL	Organic	National BIO mark of the Czech Republic. More information is available on the website of Czech Ministry of Agriculture.
BIO_FISCH	Organic	ARGE Biofisch stands for criteria in rearing of fish according to agreed quality standards of organic fish farming in Austria.

BIO_GOURMET_BUD	Organic	Fully organic, produced in Switzerland. More than 90% of the raw materials come from Switzerland. Product has been awarded for taste and quality.
BIO_LABEL_BADEN_WURTTENBERG	All	The products marked with the Bio-Zeichen Baden-Württemberg are regional organic foods with a traceable origin. The use or labelling is based on the ecological standards of the EC Organic Regulation supplemented with the requirement that the products must be produced in fully converted farms and, in part, on the more stringent requirements of the organic farming associations. The regional origin of the products ensures an additional ecological advantage of the products. The rationality promotes short transport and marketing channels. The independent checks of food by authorized inspection bodies and the additional supervision by the sign holder ensure a high degree of credibility of the sign. The control number printed on the products makes the controls comprehensible. The seal clearly shows the consumer that the agricultural products and products come from Baden-Württemberg. This ensures not only that the processing takes place in the region, but also that the sourcing of raw materials is 100% regional. In the production and processing of food, the guidelines of the EU Organic Regulation are used as the basis. Many products that are labelled with the Baden-Württemberg organic label are also produced according to the stricter guidelines of an organic farming association. The farms participating in the Bio-Zeichen Baden-Württemberg must be 100% organic. A partial conversion is - with the exception of products from the orchard - not permitted. Neutral controls ensure compliance with the guidelines.
BIO_LABEL_GERMAN	Organic	German national organic certification label (Bio-Siegel).
BIO_LABEL_HESSEN	All	The organic Label - HESSEN shows the consumer that an organically produced product originates from the region. For this, the nationwide used organic seal was supplemented with a reference to the origin. Since 2006, there is this sign for Hesse. In 2010, the organic Label - HESSEN was supplemented by another appendix: the European Union logo for organically produced products. This allows companies to use only one logo on the packaging of their products instead of three different logos, because the European organic label is required. Behind the Bio-Seal - HESSEN, similar to the quality mark "Tested Quality - HESSEN", there are special requirements for producers, processors and marketers regarding the quality and traceable origin of their products.

BIO_PARTENAIRE	Organic	Bio Partenaire guarantees that the product meets the European requirements for organic agriculture and a fair price is paid to farmers in developing countries. Previously, the label was known under the name Bio Equitable.
BIO_RING_ALLGAEU	Organic	The logo of Bio-Ring Allgäu e.V. is issued by an association of consumers and organic farmers since 1987 with the aim to strengthen the organic farming in the region of Allgäu. Their focus is on the involvement of an independent, public welfare-oriented regional development processes in connection with the marketing of high quality regional agricultural products. The association represents the interests of producers, whose production in excess of the statutory requirements and their quality criteria based on a wide range of areas basic criteria (eco-certifications) and are the life cycle (raw materials, production and processing, disposal) take into account the products.
BIO_SOLIDAIRE	Organic	The product meets both the criteria of organic farming and those of the "Bio solidaire" charter. This label aims to develop local partnerships between processors and (French) producers.
BIO_SUISSE_BUD_SEAL	Organic	Fully organic, produced in Switzerland. More than 90% of the raw materials come from Switzerland. Produced within the 2 years period in which the producer is converting to fully organic farming.
BIO_SUISSE_BUD_SEAL_TRANSITION	Organic	Fully organic, produced in Switzerland. More than 90% of the raw materials come from Switzerland. Produced within the 2 years period in which the producer is converting to fully organic farming.
BIOCHECKED_NON_GLYPHOSATE_CERTIFIED	Genetically Modified Free	BioChecked®, Agrees to provide third party certification for Non Glyphosate Certified®, (Zero Tolerance*) by reviewing and holding producer's individual copy of laboratory test results of Glyphosate testing in house in secure and confidential manner for 1 year and as renewed.
BIOCHECKED_NON_GMO_VERIFIED	Genetically Modified Free	BioChecked®, offers Non GMO Certification for single input (mono ingredient) Non GMO Certified®, and multiple input (multi-ingredient) Non GMO Verified®, foods. It is certified multiple countries;
BIODEGRADABLE	Biodegradable	The product is biodegradable. There can be different variations of the logo.
BIODEGRADABLE_PRODUCTS_INSTITUTE	Recycling	The Biodegradable Products Institute (BPI) is a not-for-profit association of key individuals and groups from government, industry and academia. Through our innovative compostable label program, we educate manufacturers, legislators and consumers about the importance of scientifically based standards for compostable materials which biodegrade in large composting facilities.

BIODYNAMIC_CERTIFICATION	Organic	The Biodynamic Certified includes all products that have published the Demeter USA Certified Biodynamic Certification on their package.
BIODYNAMISCH	<Blank>	The "Biodynamisch" indicates that products contain at least 95 percent organic and 90 percent demeter ingredients. The Label is issued by the association Demeter e.V. and is used for food and cosmetic products.
BIOGARANTIE	Animal Welfare, Organic	The Belgian Biogarantie® label, although based on the European regulations, is ahead of its time thanks to the addition of requirements in the ecological, economic and social fields. As a Biogarantie® user, you undertake to comply with the Biogarantie® specifications and the accompanying sustainability charter.
BIOKREIS	All	The Biokreis Association for Organic Farming and Healthy Food e. V. forgives the label. The label promotes cooperation between organic farmers and processing companies. They should comply with environmental and social principles. It also aims to make peasant agriculture in the sense of a circular economy. The criteria presuppose compliance with the EU organic regulation for the EU organic label, but go beyond this with its own requirements.
BIOLAND	Organic	The Bioland-Label (organic label) identifies products from organic farming. The production method based on a circular economy - without synthetic pesticides and synthetic chemical nitrogen fertilizer. The animals are kept humanely and the food will be processed carefully. The guidelines go beyond the EU criteria. The organic label is assigned by the Bioland association.
BIOLAND_ENNSTAL	Organic	The "organic farming Ennstal" was founded in 1989 as a regional initiative - today one in three farmers cultivated in Styria Liezen region its operation under the strict rules of organic farming.
BIOPARK	All	The biopark e. V. was founded in 1991 by farmers and scientists as an organic farming association. Biopark companies are represented throughout Germany. At the initiative of Biopark, the first GMO-free region was founded in Germany. The objective of the Biopark label, which has been awarded since 1991, is to promote organic farming. The aim is a closed loop as far as possible. It is about the protection of the environment, landscape management and animal welfare. Biopark certifies farms that have decided to convert their work to organic farming. The Biopark label can be found on meat and cereal products as well as on potatoes. The criteria presuppose compliance with the EU organic regulation for the EU organic label, but go beyond this with its own requirements.

BIOS_KONTROLLE	Organic, Genetically modified free	The BIOS label ensures organic food that is not genetically modified and produced in accordance with environmental standards. The BIOS logo may be used for the labelling of certified organic products exclusively.
BIRD_FRIENDLY_COFFEE_SMITHSONIAN_CERTIFICATION	Organic	The Smithsonian Migratory Bird Center Bird Friendly logo guarantees that every bean is produced organically, under high-quality shade, that tropical "agroforests" are preserved and migratory birds find a healthy haven.
BK_CHECK_VAAD_HAKASHRUS_OF_BUFFALO	Diet	Vaad HaKashrus of Buffalo Certification
BLEU_BLANC_COEUR	All	The Blue-White-Heart approach was born between 1993 and 2000, from a simple observation made by a dairy farmer, Jean Pierre Pasquet to an agricultural engineer, Pierre Weill. He explained to him that he noticed that in the spring, when his cows were in pasture grass, they were in better shape, and the butter he made was softer and more spreadable than in winter. From this observation, Jean-Pierre Pasquet and Pierre Weill began their reflection on the importance of preserving the food chain and valuing plants and seeds of nutritional interest. Together, they created an agriculture committed to a sustainable and social approach with breeders eager to feed their fellow citizens.
BLUE_ANGEL	Sustainability	The Blue Angel is awarded to companies as kind of a reward for their commitment to environmental protection. They use it to professionally promote their eco-friendly products in the market. The Blue Angel is an ecological beacon showing the consumer the way to the ecologically superior product and promotes environmentally conscious consumption.
BLUE_RIBBON_KOSHER	Diet	Blue Ribbon Kosher Certification
BLUESIGN	Environmental	The quality label bluesign® approved fabrics certifies that at least 90 per cent of the used fabrics comply with the strict safety and environmental requirements of the bluesign® criteria. Their suppliers and manufacturers have been verified as bluesign® system partners.
BODEGAS_ARGENTINA_SUSTAINABILITY_PROTOCOL	Origin	Certification: a third party audit. National - A sustainability protocol created after a 4-year study at Catena Wine Institute. For certification, a third party audit must take place, with a minimum score in each category. <a href="http://discoversustainablewine.com/argentina/">http://discoversustainablewine.com/argentina/</a>
BONSUCRO	Conformance	The Bonsucro certification standard is available to any sugarcane producer, sugar and ethanol mill, or any downstream processor of sugar, biofuels and other derivative products such as bioplastics. Integrated mills can target both sugar and biofuel

		markets, meeting sustainability requirements of both supply chains.
BORD_BIA_APPROVED	Conformance	The Bord Bia Approved logo is awarded to a company which has been audited by Bord Bia to verify that processes, from farm to fork, comply with the highest Quality Assurance Standards. These standards include: animal welfare, traceability, environment, safety, feed, water, testing, inspection, hygiene and good manufacturing practice. "Bord Bia Approved" is awarded to a company where all the ingredients including meat content satisfy the Bord Bia requirements.
BORD_BIA_APPROVED_MEAT	Origin	Bord Bia Approved - Meat Content Only applies to companies where only the meat content satisfies certain conditions detailed in the Bord Bia requirements document.
BRA_MILJOVAL_LABEL_SWEDISH	Environmental	Bra Miljöval is the ecolabel of SSNC. It is referred to as "Good Environmental Choice" in English. SSNC started ecolabelling.
BRC_GLOBAL_STANDARDS	Conformance	BRC Global Standards is a leading safety and quality certification programme, used by over 22,000 certificated suppliers in 123 countries, with certification issued through a worldwide network of accredited certification bodies.
BREATHWAY	Conformance	BreatheWay® membranes are designed to naturally extend the shelf life of virtually any fresh product that would benefit from reduced oxygen levels and managed carbon dioxide levels. A unique membrane solution manages all gas transfer requirements for the package, leaving more flexibility for the balance of the package to meet shipping or merchandising requirements.
BRITISH_DENTAL_HEALTH	Conformance	A symbol used in the UK to indicate the dental health claims are clinically proven by the British Dental Health Foundation.
BRITISH_RETAIL_CONSORTIUM_CERTIFICATION	Safety	BRC Global Standards is a leading safety and quality certification. The Standards guarantee the quality, safety and operational criteria and ensures that manufacturers fulfill their legal obligations and provide protection for the end consumer.
BSCI	Working Conditions	Stands for Business Social Compliance Initiative, and aims to improve the working conditions in the supply chain around the world. It shows consumers that an article is produced according to ethical practices as regards working conditions.
BULLFROG	Sustainability	Bullfrog Power emerged on the energy scene with a visionary goal: to transform the electricity landscape in Canada. BullfrogPower offered homes and businesses a green choice where previously there wasn't one: energy.
CA_BEEF	Origin	Product of Canada claims can be applied to meat from Canadian animals that are slaughtered in Canada. Animals are considered Canadian if they

		are born or hatched, raised and slaughtered in Canada or, in the case of feeder cattle, if they have spent a period of at least 60 days in Canada prior to slaughter in Canada.
CA_BOTH_DOM_IMPORT	Origin	When a food contains both domestic and imported ingredients, the label would state "Made in Canada from domestic and imported ingredients". This claim may be used on a product that contains a mixture of imported and domestic ingredients, regardless of the level of Canadian content in the product.
CA_BULK	Origin	To describe a food which is imported in bulk and packaged in Canada
CA_CANNED	Origin	To describe green beans that were canned in Canada
CA_DISTILLED	Origin	To describe bottled water that was distilled in Canada
CA_IMPORT	Origin	When a food is made with ingredients that are all sourced from outside of Canada, the label would state "Made in Canada from imported ingredients"
CA_INGREDIENT	Origin	The claim "Canadian" is considered to be the same as a "Product of Canada" claim. As such, all or virtually all major ingredients, processing, and labour used to make the food product must be Canadian. For example, the claim "Canadian" on a container of frozen lasagna would mean that the food meets the "Product of Canada" criteria.
CA_MADE	Origin	A "Made in Canada" claim with a qualifying statement can be used on a food product when the last substantial transformation of the product occurred in Canada, even if some ingredients are from other countries.
CA_MUSTARD_SEEDS	Origin	The claim "Canadian" is considered to be the same as a "Product of Canada" claim. As such, all or virtually all major ingredients, processing, and labour used to make the food product must be Canadian. For example, the claim "Canadian" on a container of frozen lasagna would mean that the food meets the "Product of Canada" criteria
CA_OATS	Origin	When the claim "100% Canadian" is used on a label, the food or ingredient to which the claim applies must be entirely Canadian rather than "all or virtually all" Canadian
CA_PREPARED	Origin	To describe a food which has been entirely prepared in Canada
CA_PROCESSED	Origin	To describe a food which has been entirely processed in Canada
CA_PRODUCT	Origin	A food product may use the claim "Product of Canada" when all or virtually all major ingredients, processing, and labour used to make the food product are Canadian. This means that all the significant ingredients in a food product are

		Canadian in origin and that non-Canadian material is negligible.
CA_PROUD	Origin	A claim such as "Proudly Made in Canada" would need a qualifying statement if the product contains imported ingredients as this claim includes the phrase "Made in Canada"
CA_REFINED	Origin	To describe imported cane sugar which has been refined in Canada;
CA_ROASTED_BLENDED	Origin	To describe coffee since the coffee beans are always imported
CAC_ABSENCE_EGG_MILK	Allergies	The Absence of Eggs and Milk mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products.
CAC_ABSENCE_EGG_MILK_PEANUTS	Allergies	The Absence of Eggs, Milk and Peanuts mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products.
CAC_ABSENCE_OF_ALMOND	Allergies	The Absence of Almond mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products.
CAC_ABSENCE_OF_EGG	Allergies	The Absence of Egg mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products.
CAC_ABSENCE_OF_MILK	Allergies	The Absence of Milk mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly

		affected by food allergies can purchase safer products.
CAC_ABSENCE_OF_PEANUT	Allergies	The Absence of Peanut mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products
CAC_ABSENCE_PEANUT_ALMOND	Allergies	The Absence of Peanuts & Almonds mark indicates that the product meets The Association quebecoise des allergies alimentaires (AQAA)'s Allergen Control (CAC) Mark of Conformity. This program is intended for the food processing industry and aims to establish uniformity in allergen control measures in processed foods so that people directly or indirectly affected by food allergies can purchase safer products.
CAFE_PRACTICES	Agriculture	Coffee and Farmer Equity (C.A.F.E.) Practices evaluates, recognizes and rewards producers of high-quality sustainably grown coffee. C.A.F.E. Practices is a green coffee sourcing guideline with third-party evaluation.
CAN_BNQ_CERTIFIED	Safety	The Bureau de normalisation du Québec (BNQ) is accredited by the Standards Council of Canada (SCC) as a certification organization. This accreditation guarantees the BNQ's impartiality in the process, and the BNQ's compliance with SCC requirements, as well as those of the International Organization for Standardization (ISO) in terms of competence and ethical practices.
CANADA_GAP	Conformance	CanadaGAP is a food safety program for companies that produce, pack and store fruits and vegetables. It is designed to help implement effective food safety procedures within fresh produce operations
CANADIAN_AGRICULTURAL_PRODUCTS	Origin	Products which are identified by the Canadian Agricultural Products (CAP) Act, e.g. dairy, eggs, fruits, vegetables, honey, maple, meat, poultry, fish.
CANADIAN_ASSOCIATION_FIRE_CHIEFS_APPROVED	Safety	The Canadian Association of Fire Chiefs (CAFC) is an independent, non-profit organization with a voluntary membership representing approximately 3,500 fire departments across Canada. CAFC promotes the highest standard of public safety in an ever changing and increasingly complex world to ensure the protection of the public through leadership, advocacy and active collaboration with key stakeholders
CANADIAN_CERTIFIED_COMPOSTABLE	Recycling	The right to use the mark of conformity "COMPOSTABLE" on compostable plastic bags and on compostable products is granted only to those

		manufacturer/distributors that demonstrate that their product conforms with specific performance attributes and adheres to the parameters for "compostability" as set out in the BNQ documents, Compostable Plastic Bags - Certification Program
CANADIAN_DERMATOLOGY_ASSOCIATION_SKIN_HEALTH	Conformance	The Skin Health Program's framework is based, in large part, on the CDA's longstanding and successful Sun Protection Program (SPP). However, the scope of the Skin Health Program is much broader. The SHP was created to effectively fill a need expressed to us by consumers and industry for the development of an effective evidence-based program that reflects the most recent available dermatological science. The SHP will help people navigate the variety of products on the market designed to enhance and maintain skin health.
CANADIAN_DERMATOLOGY_ASSOCIATION_SUN_PROTECTION	Conformance	The Canadian Dermatology Association, founded in 1925, represents Canadian dermatologists. The association exists to advance the science and art of medicine and surgery related to the care of the skin, hair and nails; provide continuing professional development for its members; support and advance patient care; provide public education on sun protection and other aspects of skin health; and promote a lifetime of healthier skin, hair and nails.
CARBON_FOOTPRINT_STANDARD	Sustainability	Carbon Footprint Ltd is ISO14001 certified for environmental management and has a Quality Management System certified to ISO 9001:2008. PAS 2060 Carbon Neutrality programme meets the British Standard Institute (BSI)'s specification on carbon neutrality.
CARBON_NEUTRAL	Sustainability	CarbonNeutral's certification, from The CarbonNeutral Company, is the global standard for businesses, products or services that have measured, reduced and offset their carbon emissions to net zero, set out in accordance with the rules and regulations of the CarbonNeutral Protocol.
CARBON_NEUTRAL_NCOS_CERTIFIED	Sustainability	The Carbon Neutral Certified by NCOS certification attribute includes all products that have published the Carbon Neutral Certified seal by NCOS (National Carbon Offset Standard) on their packaging.
CARBON_NEUTRAL_PACKAGING	Sustainability	The CarbonNeutral Protocol sets out a credible, transparent and practical framework for carbon neutral action. This provides businesses with a pragmatic, business-focused guidance to assure companies that their action is clear and of the highest quality.
CARIBBEAN_KOSHER	Diet	Caribbean Kosher, a division of Chabad Lubavitch of Puerto Rico
CCA_GLUTEN_FREE	Allergies	Gluten Free Certification Program is available to those manufacturers & brand owners who produce gluten-free products. Manufacturers must comply

		with regulations governing gluten-free claims as set out by the Canadian Government.
CCC	Conformance, Safety	“CCC” is the abbreviation of “China Compulsory Certification”, more commonly known as “3C Certification” or “3C Certificate”, a conformity assessment system of market access, is implemented by Chinese government in line with the international practices to assess products’™ conformity with national compulsory standards and technical specifications. It is a mandatory requirement imposed on certain products sold in China market. For the list of mandatory products, visit <a href="http://www.ccc-certificate.org/en/renzhengzhidu/qiangzhixingchanpinmubi">http://www.ccc-certificate.org/en/renzhengzhidu/qiangzhixingchanpinmubi</a>
CCF_RABBIT	Conformance	CCF Rabbit Certification attribute includes all products that present a CCF Rabbit Not Tested on Animal logo.
CCOF	Organic	California Certified Organic Farmers (CCOF) is a full-service organic certification agency and trade association passionate about being the leading voice for organic, and certifying, educating, advocating, and promoting organic.
CCSW	All	Certification: Bottle certification. Regional, California, Industry. Environmental Soundness, Economical Feasibility and Social Equality. Over 100 criteria ranked 1-4. <a href="http://www.sustainablewinegrowing.org">www.sustainablewinegrowing.org</a>
CEBEC	Conformance	CEBEC is a Belgian label for electrical low voltage (1,000 V). It indicates that compliance is met with the rules applicable to such equipment from the European Union (including the Low Voltage Directive).
CEL	Sustainability	The Canadian EcoLogo (also known as Environmental Choice) helps you identify products and services that have been independently certified to meet strict environmental standards that reflect their entire life cycle “ from manufacturing to disposal. EcoLogo standards are designed so that only the top 20% of products available on the market can achieve certification. More than 7,000 products “ from paint to paper “ carry this logo.
CELIAC_SPRUE_ASSOCIATION	Allergies	The Celiac Support Association certification represents a company's manufacturing practices to reduce the risk of allergen contamination for celiac and gluten sensitive customers. Products with this certification are tested using the most sensitive validated testing method to ensure it's gluten free status. This recognition seal also indicates the company's commitment to communicating product information to the consumer.
CENTRAL_RABBINICAL_CONGRESS_KOSHER	Diet	Central Rabbinical Congress Kosher Certification

CERTIFIE_TERROIR_CHARLEVOIX	Origin	A certification program to promote the products meet the original criteria of agricultural and food products of the Charlevoix terroir.

FRAN_SVERIGE	Origin	In composite products, i.e. a product with at least one added ingredient, at least 75% to be Swedish (water does not count). Bread, cheese and fruit yogurt are examples of composite products. Meat,

		eggs and raw milk should always be 100% Swedish, even as an ingredient in a product. All animals must be born, raised and slaughtered in Sweden. Cultivation should have taken place in Sweden. All processing and packaging must take place in Sweden.
FRANCE_LIMOUSIN_MEAT	Origin	France Limousin meat is meat that is constantly monitored from birth to slaughter. Every animal has its own unique registration number and when exported is assigned an official certificate of origin.
FREILAND	Organic	The yellow triangle with the flower is only awarded to food and firms that adhere strictly to the principles of organic farming and beyond the highest standards of animal husbandry.
FRESHCARE	Safety, Environmental	Certification: based on ISO14001. Private non profit owned by Australian horticultural industry bodies. Can certify that a code of practice exists for Viticulture/Winery, only Viticulture or only Winery. Process based and based on ISO14001. Described as a guide how to manage business risk through identification and evaluation. <a href="https://www.freshcare.com.au/">https://www.freshcare.com.au/</a>
FRIEND_OF_THE_SEA	Sustainability	Friend of the Sea Approved Fisheries: - target stocks which are not overexploited - use fishing methods which don't impact the seabed, and - generate less than average 8% discards.
FRUITS_ET_LEGUMES_DE_FRANCE	All	The French agricultural organizations have created a common visual identity in order to highlight the French origin of agricultural products in this case fruit and legumes: the signatures "Agricultural Products of France". Remarkable to their elegant silhouette in a tricolor pentagon that is available for each family of products, these signatures reflect the commitment of the professionals of the sectors to value the know-how, the territories and the French jobs. Covering a variety of productions, these signatures all have a common basis, which consists of four criteria: Origin France of the products concerned, The existence of specifications or regulations governing the use of the logo, A formal commitment from the operators of the sectors concerned wishing to use these logos, Controls performed by a third party.
GAEA	Organic	GÃœa is a diverse farming association for farmers, processors and traders inside. The focal point is Germany. GÃœa is a special design for the structure of the organic farming.
GANEDEN_BC30_PROBIOTIC	Health	GanedenÂ® BC30 (Bacillus coagulans GBI-30, 6086) is a patented probiotic ingredient which can be found in food, beverage, sports nutrition and companion animal products. Unlike most other probiotic strains, GanedenÂ® BC30 is a spore-former which makes it highly stable and allows it to

		remain viable through most manufacturing processes, three years of shelf life and the low pH of stomach acid.
GAP_1	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Base Certification: Base certification is our minimum G.A.P. animal welfare certification level. This means that all of the farms and/or ranches raising the animal have met over 100+ animal welfare standards including more space to move around, and no cages or crates that would confine them. When you see our G.A.P. Animal Welfare Certified label, it means that the animals were raised without antibiotics and no added hormones, and were also fed a vegetarian diet with no animal by-products.
GAP_2	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Enriched Environment: Animals were raised in environments that provide them with more space and additional enrichments (such as straw bales and perches) to encourage natural behaviors. Again, all G.A.P. certified animals were raised without antibiotics or any added hormones, and were fed a vegetarian diet with no animal by-products.
GAP_3	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Outdoor Access: Animals have the choice of indoor or outdoor living (weather permitting for poultry), and also have additional enrichments indoors and out. At this level, farms and ranches ensure the animals are managed in both environments.
GAP_4	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Pasture Raised: Animals are raised on pasture year-round. In some climates where pastures need to be protected for use the next year, animals must still be given daily access to outdoor areas. Cattle, sheep, goats and bison are not permitted to be finished in feedlots. Farmers and ranchers raise animals that are well suited for outdoor living, and sustainably manage their environments.
GAP_5	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Animal Centered: Animals live on pasture year-round, with protection from the environment (shelters, windbreak, etc.). Farmers and ranchers raise animals that are well suited for outdoor living, and sustainably manage their environments. No physical alterations are performed on any of the animals (e.g. castration, tail docking, etc).
GAP_5_PLUS	Conformance, Animal Welfare, Working Conditions	Animal Welfare Certified - Entire Life on Farm: This is our top tier of animal welfare certification. All of the requirements of the Animal Centered level are met (animals live on pasture year round with protection, no physical alterations allowed, etc.) but animals are also processed on-farm, or through the use of a mobile slaughter facility, so their entire life is spent on the farm.

GASKEUR	Conformance	Gaskeur is a hallmark of KIWA. The label is applied voluntarily in the Netherlands to boilers. It indicates the additional standards the installation complies with, above the legal requirements that the equipment must meet. It is an addition to the CE mark.
GASTEC	Conformance	GASTEC QA (Quality Approved) is a quality mark for gas related products and is issued exclusively by KIWA. GASTEC QA not only makes the quality and safety of the product itself visible but also of the whole production process.
GCP	Sustainability	The GCP logo is the key identifier of the Global Coffee Platform. It symbolizes the core attributes that are at the heart of what the organization does: farmer-centric, multi-stakeholder, inclusive, shared responsibility.
GEBANA	Conformance, Fair Trade	Quality seal for fairly traded and socially acceptable products from the south. Label owned by gebana
GENUSS_REGION_AUSTRIA	Origin	GENUSS REGION Ã–STERREICH is an initiative of the Agrarmarkt Austria Marketing GesmbH and the Austrian Federal Ministry of Agriculture, Forestry, Environment and Water Management. It stands for domestic and regional agricultural products and specialties.
GENUSS_REGION_AUSTRIA	Origin	GENUSS REGION Ã–STERREICH is an initiative of the Agrarmarkt Austria Marketing GesmbH and the Austrian Federal Ministry of Agriculture, Forestry, Environment and Water Management. It stands for domestic and regional agricultural products and specialties.
GEPRUEFTE_SICHERHEIT	Conformance	The Geprüfte Sicherheit ("Tested Safety") or GS mark is a voluntary certification mark for technical equipment. It indicates that the equipment meets German and, if available, European safety requirements for such devices.
GEZONDERE_KEUZE	Diet	Identifies basic staple products (such as fruit, milk, bread, etc.) that constitute a healthier choice for consumers because of their higher nutritional value in comparison to similar products according to the guidelines of the Dutch Wetenschappelijke Commissie.
GFCO	Allergies	The Gluten-Free Certification Organization (GFCO) is a program of The Gluten Intolerance Group. GFCO's Scientific and Professional Board review the practices of GFCO. GFCO inspects products and manufacturing facilities for gluten. GFCO does not certify products for other potential allergens. The contents of this site are not intended as medical advice.
GFCO	Diet	
GFCP	Allergies	The Gluten-Free Certification Program (GFCP), Endorsed by the National Foundation for Celiac

		Awareness (NFCA)- The National Foundation for Celiac Awareness endorsed Gluten-Free Certification Program (GFCP) is a voluntary certification program designed to designate trusted gluten-free products in the marketplace by displaying the NFCA certification trademark. Based on a robust third-party audit certification process at the manufacturing facility, the GFCP verifies that the manufacturing process for a product regularly meets stringent requirements for managing gluten as part of their food safety programs. The GFCP is a North American solution, using a single process to certify products for distribution in the US and Canada.
GIG_GLUTEN_FREE_FOODSERVICE	Conformance	The Gluten-Free Food Services (GFFS) Training and Accreditation Program, a program of GIG, is designed to work with all food service establishments who wish to provide for and serve gluten-free consumers. GFFS works with experts in food preparation to develop, educate, and train service establishments to meet and adhere to the highest gluten-free standards.
GLOBAL_CARE	Environmental	"Global Care" represents our commitment to social and environmental responsibility worldwide. As a leader in innovative lighting solutions, we are dedicated to products and processes that contribute to solving global sustainability challenges, address economic needs and protect the environment for today and for the future. That way we ensure sustainable development not only for the company, but also for society and the environment.
GLOBAL_GAP	Conformance, Animal Welfare, Working Conditions	GLOBALG.A.P. is a private sector body that sets voluntary standards for the certification of production processes of agricultural (including aquaculture) products around the globe. The GLOBALG.A.P. standard is primarily designed to reassure consumers about how food is produced on the farm by minimising detrimental environmental impacts of farming operations, reducing the use of chemical inputs and ensuring a responsible approach to worker health and safety as well as animal welfare.
GLOBAL_ORGANIC_LATEX_STANDARD	Organic	The Global Organic Latex Standard certification attribute includes all products that have published the Global Organic Latex Standard seal on their packaging.
GLOBAL_ORGANIC_TEXTILE_STANDARD	Organic	The Global Organic Textile Standard (GOTS) ensure organic status of textiles, from harvesting of the raw materials, through environmentally and socially responsible manufacturing up to labelling in order to provide credible assurance to the consumer.

GLOBAL_RECYCLED_STANDARD	Recycling	The Global Recycled Standard is intended for companies that are making and/or selling products with recycled content. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, and labeling. Developed with the textile industry in mind, the GRS may also be applied to products from any industry.
GLYCAMIC_INDEX_FOUNDATION	Allergies	The Glycemic Index Foundation certification includes all products that have published the Glycemic Index Foundation stamp on their package.
GLYCAMIC_RESEARCH_INSTITUTE	Allergies	The Glycemic Research Institute certification includes all products that have published the Glycemic Research Institute stamp on their package.
GMO_GUARD_FROM_NATURAL_FOOD_CERTIFIERS	Allergies	The GMO-Guard from Natural Food Certifiers certification includes all products that have published the GMO-Guard from Natural Food Certifiers stamp on their package.
GMO_MARKED	Genetically Modified	The item is physically marked as of genetically modified origin.
GMP_CERTIFIED	Conformance	Good Manufacturing Practices (GMP) introduces a management systems approach to documenting and regulating the production, control, storage, and shipment of products. For example in 2011, the World Health Organization updated GMP requirements in the good manufacturing practices standard (WHO TRS 961, 2011 for certification of Pharmaceuticals). WHO has also created GMP processes for other product types. Also FDA and other organisations.
GMP_ISO_22716	Conformance	Good Manufacturing Practices (GMP) introduces a management systems approach to documenting and regulating the production, control, storage, and shipment of products. ISO standard 22716 is for cosmetic products that are manufactured according to Good Manufacturing Practices (GMP).
GOA_ORGANIC	Organic	Global Organic Alliance (GOA) provides services to various organic certification or compliance verification programs.
GODKAND_FOR_EKOLOGISK_ODLING_KRAV	Organic	KRAV's label for production aids, the so-called arrow label with the text "Godkänd för ekologisk odling", states that the product on which the label is attached is approved for use in organic farming. The products are inspected annually by independent certification bodies - so-called third-party certification. Manufacturers of production aids may, if they comply with KRAV's regulations and have been approved by a certification body, use the arrow mark.
GOOD_HOUSEKEEPING	<Blank>	Good Housekeeping maintains good taste and exercises strict editorial judgment as to products that are eligible for Good Housekeeping's limited warranty to consumers. Good Housekeeping

		bestows its limited warranty Seal on those products that have been evaluated by the Good Housekeeping Institute and been assessed to perform as intended. These judgments are the basis of the Good Housekeeping Consumers' Refund Policy.
GOODS_FROM_FINLAND_BLUE_SWAN	Origin	Finfood Suomen Ruokatieto Ry. The HyvÄÄ Suomesta â€œ Produce of Finland label is a designation of origin for Finnish packaged foods. The label is voluntary and may be used by Finnish food industry companies that manufacture their products in Finland using Finnish ingredients.
GOODWEAVE	Working Conditions	GoodWeave aims to stop child labour in the carpet industry and to replicate its market-based approach in other sectors.
GRASKEURMERK	Sustainability	This label is awarded by the Stichting Gras Keurmerk to manufacturers of both vegetable and animal products who comply with the Dutch guidelines for pasturing and agriculture (Normering Grasdier Landbouw). These guidelines establish that cattle/animals are to be kept at stables with enough space and are allowed to go outside daily. Under these guidelines, crops are to be grown using animal fertilizer and with very limited use of other substances.
GRASP	Worker Conditions	GRASP stands for GLOBAL G.A.P. Risk Assessment on Social Practice. GRASP is a voluntary ready-to-use module designed to assess social practices on the farm. The requirements catalogue consists of 11 standardized requirements and one additional QMS requirement that address specific aspects of workersâ€™ health, safety and welfare. GRASP is designed to extend the social standards of your GLOBALG.A.P. Certification.
GREEN_AMERICA_CERTIFIED_BUSINESS	Environmental	The Green America Certified Business certification attribute includes all products that have published the Green America Certified Business Gold, Silver, or Bronze seal on their packaging. Businesses earn this seal after staff at Green America's Green Business Network reviews and approves their application.
GREEN_DOT	Recycling	The Green Dot on packaging means that for such packaging a financial contribution has been paid to a qualified national packaging recovery organisation that has been set up in accordance with the principles defined in European Packaging and Packaging Waste Directive 94/62 and the respective national law. Today, self-help-organisations in 28 countries are using the Green Dot as financing symbol to finance the organisation of the collection, sorting and recovery of used (mainly household) packaging.
GREEN_E_ENERGY_CERT	Sustainability	Green-e Energy certifies renewable energy that meets the highest standards in North America: it

		must be generated from new facilities, marketed with complete transparency and accuracy, and delivered to the purchaser, who has sole title. Green-e verifies the entire chain of custody of certified renewable energy from generation to retirement to ensure individuals and businesses are getting exactly what they paid for.
GREEN_E_ORG	Sustainability	Green-e Energy is the nation's leading voluntary certification program for renewable energy. For two decades, Green-e Energy has been certifying renewable energy that meets environmental and consumer protection standards that it developed in conjunction with leading environmental, energy and policy organizations. Green-e Energy also requires that sellers of certified renewable energy disclose clear and useful information to potential customers, allowing consumers to make informed choices.
GREEN_RESTAURANT_ASSOCIATION_ENDORSED	Sustainability	The item is physically marked with the Green Restaurant Association Endorsed symbol. The purpose of the Green Restaurant Association standards is to provide a transparent way to measure each restaurant's environmental accomplishments, while providing a pathway for the next steps each restaurant can take towards increased environmental sustainability.
GREEN_SEAL	Sustainability	An independent, non-profit organization that strives to achieve a healthier and cleaner environment by identifying and promoting products.
GREEN_SEAL_CERTIFIED	Sustainability	The item is physically marked with the Green Seal Certified symbol. Our sustainability standards for products, services, and companies are based on life-cycle research, and are developed in an open, transparent, and stakeholder-involved process. Green Seal standards provide criteria and guidelines for manufacturers, service providers, and companies to work toward sustainability and Green Seal certification. Green Seal has 33 issued standards that cover 400 product and service categories.
GREEN_SHIELD_CERTIFIED	Conformance	Green Shield Certified is an independent, non-profit certification program that promotes practitioners of effective, prevention-based pest control while minimizing the need to use pesticides.
GREEN_STAR_CERTIFIED	Genetically modified free	Green Star Certified- "GMO FREE CERTIFIED" brand program certifies producers have provided laboratory results that their produce or products are GMO Free. The United States does not mandate GMO Free labelling or even recommend labelling, however producers want to provide peace of mind their produce and products are GMO free with the trusted GMO FREE CERTIFIED seal. Green Star Certified allows these same producers and manufactures to participate in the "GMO FREE

		CERTIFIED™ program by having their produce, seeds, feed and processed food tested by leading independent genetic testing laboratories. Once their products meet and maintain the Green Star Certified standards/threshold these producers can place the GMO FREE CERTIFIED™ brand on their marketing and product labels.
GREENCHOICE	Environmental	GreenChoice 100™ is superior paperboard and the only one that is Eco-Logo, FSC, and Rainforest Alliance certified all at the same time. All energy used for GreenChoice 100™ is 100% offset by renewable wind energy producers. It's 100% carbon-neutral, as all carbon emitted is fully offset by new plantings. GreenChoice 100™ is also 100% recyclable, as 100% of fibres used come from recycled sources. Approximately 35% is post-consumer material and 65% is pre-consumer (fibres returned from the supply chain).
GROEN_LABEL_KAS	Environmental	This label is awarded to companies which use environment-friendly greenhouses. These greenhouses are to be set up according to strict regulations which aim to ensure the impact of the environment remains at a minimal level (less water and energy waste, no chemical waste).
GRUYERE_FRANCE	Agriculture	Gruyère de France comes from the meadows of Savoie and Franche-Comté (Haute-Saône and Doubs). It is a tasty cooked pressed cheese with raw milk, guaranteeing precious nutritional qualities.
GUARANTEED_IRISH	Origin	Ireland: The Guaranteed Irish symbol makes shopping for Irish products and services a lot easier. Shoppers know that when they buy a product or service featuring the guaranteed Irish logo they are supporting Irish companies and safeguarding Irish jobs.
HALAL_AUSTRALIA	Diet	For all exports, only recognised Islamic organisations such as Halal Australia can certify halal meat and meat products in Australia. The Halal Australia certification is backed by Australian government assurance that the product has been produced in accordance with Islamic Shari'ah standards.
HALAL_CERTIFICATION_SERVICES	Diet	Halal Certification Services (HCS) is a Swiss-based inspection and certification body established in 1987, recognized and respected worldwide for its Halal services. Halal Certification Services has acquired official recognitions from JAKIM Malaysia, MUI Indonesia and MUIS Singapore enabling HCS to meet the exporting demand of food, pharmaceutical and cosmetic industry. HCS's objectives are to raise the availability of Halal certified raw materials and products enabling the manufacturers to produce authentic Halal products.

HALAL_CERTIFICATION_SERVICES_CH	Diet	Halal Certification Services (HCS) is a Swiss-based inspection and certification body established in 1987, recognized and respected worldwide for its Halal services. Halal Certification Services has acquired official recognitions from JAKIM Malaysia, MUI Indonesia and MUIS Singapore enabling HCS to meet the exporting demand of food, pharmaceutical and cosmetic industry. HCS's objectives are to raise the availability of Halal certified raw materials and products enabling the manufacturers to produce authentic Halal products. This label can only be used for products produced in Switzerland.
HALAL_CORRECT	Diet	The standard HALAL CORRECT is a standard quality and guarantees the Halal conformity of the whole chain, from slaughtering until the packaging of the Halal products.
HALAL_FOOD_COUNCIL_OF_SOUTH_EAST_ASIA_THAILAND	Diet	HALAL Certification of Halal Food Council of South East Asia Thailand
HALAL_HIC	Diet	Halal Inspections and Certification (HIC) CANADA BY THE B.C. MUSLIM ASSOCIATION (BCMA) was established to help ensure that all muslims could be confident that the meat and products they consume are "genuinely Halal". The HIC CANADA organization is an independent, not for profit, registered charity which monitors, inspects and certifies halal products for the benefit of the muslim community.
HALAL_HPDS	Diet	Halal Product Development Services (HPDS) is a Canadian company providing a range of halal and market related services. HPDS has experience in providing halal services to various sectors of the food business including agriculture, processing, food service and the grocery sector.
HALAL_INDIA	Diet	Halal India is one of the established Halal Certification body in India. They are committed to achieve excellence in consultation, issuing halal compliance certification, independent auditing & monitoring systems and promoting other acceptable products and services as per shariah (law).
HALAL_ISLAMIC_FOOD_CANADA	Diet	The Islamic Food and Nutrition Council of Canada (IFANCC) is Canada's leading Halal certifying organization. The IFANCC Halal certificate is an authoritative, reliable and independent testimony to support your claim as a manufacturer or operator that your products meet Halal requirements
HALAL_ISLAMIC_SOCIETY_OF_NORTH_AMERICA	Diet	ISNA® Canada has been providing Halal Certification service to the Muslim communities not only in Canada and the United States but throughout the Muslim world. ISNA® Canada developed its Halal Logo (see below) to be put on

		the packages certified by it to assure the Muslims that package contains the Halal food.
HALAL_PLUS	Diet, Organic	The standard HALAL PLUS is high-quality Halal, certified by the Foundation Halal Correct and biologically certified by SKAL.
HAUTE_VALEUR_ENVIRONNEMENTALE	All	The National Commission for Environmental Certification (NCEC), was created on October 25, 2011 to monitor the implementation of the device. It is made up of representatives of the State, agricultural unions, approved associations for the protection of the environment, the agri-food industry, distribution and consumer organizations. The NCEC has in particular defined the control plans defining the precise framework allowing the certification of farms for each level of the system.
HAZARD_ANALYSIS_CRITICAL_CONTROL_POINT	Conformance	Hazard Analysis Critical Control Point (HACCP) is an approach to food safety that is systematic and preventive. It is recommended by the Codex Alimentarius Commission, the United Nations international standards organization for food safety. HACCP is used by most countries around the world. It has been in use since the 1960s. A HACCP system allows you to identify hazards and put in place controls to manage these throughout your supply chain during production. The HACCP scheme meets the requirements of the Codex Alimentarius Commission (CAC) " established by the World Health Organisation and the Food and Agriculture Organisation of the United Nations to bring together international food standards, guidelines and codes of practice to ensure fair trade. It can also be used to support the requirements of management standard requirements, such as ISO 22000 Food Safety Management.
HEALTH_CHECK	Conformance	Specifies if product has been certified by Canadian Heart & Stroke Health Check Program.
HEALTH_FOOD_BLUE_HAT_SIGN	Conformance, Safety	With the approval of relevant regulatory authorities, the blue hat sign is marked on health food's package.
HEUMILCH	Origin	ARGE Heumilch Milk production of "hay milk" is the most natural form of milk production. Products that use "Hay Milk" in their production are awarded the certification label. Hay milk is milk that no animals feed from food that is from silage (fermented feed) is produced. The feeding is the natural course of the year: summer up to 50 different types of grasses and herbs in the meadows, pastures and meadows. In winter, the animals are fed with hay and grain meal, are just some examples of the guidelines. Heumilch from Austria is made according to a strict regulations. This is monitored by independent

		authorities. The AMA seal of approval guarantees 100% Austrian raw materials.
HFAC_HUMANE	Animal Welfare	Certified Humane Raised and Handled® label on a product ensure that the food products have come from facilities that meet precise, objective standards for farm animal treatment
HMCA_HALAL_MONTREAL_CERTIFICATION_AUTHORITY	Diet	The mission at Halal Montreal Certification Authority (HMCA) has always been that of guidance and support to companies wishing to broaden their Halal market potential, whether local or abroad.
HOCHSTAMM_SUISSE	Sustainability	Only fruits from high stem fruit trees
HOW_2_RECYCLE	Recycling	How2Recycle is a standardized labeling system that clearly communicates recycling instructions to the public. It involves a coalition of forward thinking brands who want their packaging to be recycled and are empowering consumers through smart packaging labels. The How2Recycle label was created to provide consistent and transparent on-package recycling information to consumers in North America.
HUMANE_HEARTLAND	Environmental	Humane Heartland attribute includes all products that present a Humane Heartland logo.
HYPERTENSION_CANADA_MEDICAL_DEVICE	Conformance	Hypertension Canada is the only national non-profit organization dedicated solely to the prevention and control of hypertension and its complications. We work with leading minds across medical and health disciplines to advance research and professional and public education, and with policy makers to ensure Canadians can avoid the potentially deadly complications of hypertension.
ICADA	Organic	The ICADA (International Cosmetic and Detergents Association) mark makes it for the consumer visible that only raw materials were used for the production of organic and natural cosmetics, which conform to the strict requirements.
ICEA	Organic, Sustainability	ICEA (Istituto Certificazione Etica e Ambientale, Environmental and Ethical Certification Institute) is a Consortium that control and certifies companies that carry out their activities in respect of people and nature, defending workers dignity and rights of consumers. ICEA is among most important bodies of the sector in Italy and in Europe, where it operates to favour a fair and socially sustainable development that ranges from organic farming to other bio related sectors.
ICELAND_RESPONSIBLE_FISHERIES	Origin	The Iceland Responsible Fisheries logo indicates Icelandic origin of fish catches in Icelandic waters and responsible fisheries management.
ICS_ORGANIC	Organic	Organic Certification assures consumers that organically produced foods and textiles meet a consistent set of standards that were developed and are regulated by the USDA National Organic

		Program (USDA NOP), or similar internationally recognized standard. In order to label products as Organic, certification is required by law in the U.S. and many other countries. As a USDA NOP Accredited Certifier, ICS verifies that all its clients are compliant with these standards. ICS certifies all categories of operations: Family Farms, Commercial Farms, On-farm processing, Contract Services, Processor/Manufacturers, and Handlers.
IFANCA_HALAL	Diet	IFANCA, one of the world's leading resources for halal information. Halal, when applied to food, is a dietary set of guidelines for Muslims living an Islamic lifestyle. Since 1982, IFANCA is committed to helping halal consumers through research, education and advocacy. One of the services IFANCA provides to halal consumers is third-party halal certification. Our certification symbol, the Crescent helps halal consumers select goods, assuring them that what they buy is halal without a doubt.
IFOAM	Organic	International Federation of Organic Agriculture Movements (IFOAM) Accreditation is primarily a means of ensuring fair and orderly trade of organic products. It is in this sense a service for the trade and producers as well as for certifiers. IFOAM Accreditation facilitates equivalency of organic certification bodies worldwide by confirming whether they meet IFOAM's international norms.
IFS_HPC	Conformance	IFS Standards help to comply with all legal food and non-food safety and quality requirements and give common and transparent standards to all concerned suppliers and service providers as well as a concrete and strong answer to the high safety and quality expectations of customers.
IGP	Origin	The IGP label (indication géographique protégée) is for products with a protected geographical indication. This means that the speciality has either been produced, processed, or refined in the place of origin. The raw materials used are 100 % Swiss in origin.
IHTK_SEAL	Animal Welfare	Cosmetics according to the guidelines of the German Society for the Prevention of Cruelty to Animals ( Deutscher Tierschutzbund e. V. ) The German Society for the Prevention of Cruelty to Animals and the International Manufactory Association against Animal Testing in Cosmetics ( IHTK e. V.) carry on their consequent work against animal testing in 2001.
IKB_EIEREN	Conformance	IKB egg is a Dutch quality system for the production of eggs.
IKB_KIP	Conformance	The Product Board for Poultry and Eggs has registered the IKB Chicken quality mark with the Benelux Trademarks Office, for the purpose of

		recognisability of rigorously inspected, quality poultry meat, produced and handled in conformity with the regulations of the IKB Chicken certification scheme stipulated by the management of the Product Board for Poultry and Eggs.
IKB_VARKEN	Conformance	Products produced within the Dutch quality system IKB pig come from companies that are checked with regard to their use of animal feed, use of animal medication, hygiene and transportation.
INDEKLIMA_MAERKET	Conformance	Dansk Indeklima MÅl rkning (DIM) is a voluntary labeling scheme. DIM requires documented limited emission of gas, fibres, particles and smell to secure high indoor climate.
INSTITUT_FRESENIUS	Conformance	This INSTITUT FRESENIUS Quality Seal on a package, certify, that this item is a quality product that consumer can trust in. That's because Fresenius thoroughly examine products, that indicates it is high-class quality. The main focus on food products and related cooking products.
INT_PROTECTION	Conformance	The IP Code (International Protection Rating, sometimes called Ingress Protection) on electrical appliances is an indication of the degree of protection of the design of electrical and electronic equipment against internal damage in "hostile environments" and against any danger to the user. The IP designation is internationally standardized in IEC 60529. The IP designation has two numbers: the first indicates the degree of protection against contact and ingress of objects, the second indicates the degree of protection against moisture. Companies can use their own logo.
INTEGRITY_AND_SUSTAINABILITY_CERTIFIED	Sustainability	Certification: Integrity and Sustainability Certified. National, South Africa. Integrity and Sustainability Certified is IPW + Wine of Origin in a single label. It must include vineyards, winery, processing and packaging. <a href="http://www.swsa.co.za/">http://www.swsa.co.za/</a>
INTERNATIONAL_ALOE_SCIENCE_COUNCIL_CERTIFICATE	Conformance	The International Aloe Science Council Cert certification includes all products that have published the International Aloe Science Council Certification stamp on their package.
INTERNATIONAL_KOSHER_COUNCIL	Diet	The International Kosher Council was established to assist food manufacturers in the many facets that encompass getting a product kosher certified.
INTERNATIONAL_TASTE_QUALITY	Award	The Superior Taste Award label is a powerful marketing tool that is used to communicate about the products and the company's success, in both domestically and internationally. Its visibility of the label brings an immediate differentiation amongst the vast product choices on the marketplace and reassures consumers in their buying decision.
INTERTEK_CERTIFICATE	Conformance	The ETL Mark is proof of product compliance to North American safety standards. Authorities Having Jurisdiction(AHJs) and code officials across

		the US and Canada accept the ETL Listed Mark as proof of product compliance to published industry standards. The ETL Listed Mark is proof that a product has been independently tested and meets the applicable published standard.
INTERTEK_ETL	Safety	Intertek's ETL Mark is a safety mark which is recognised all over North America. It indicates that your product has been tested by an accredited third party testing laboratory, and meets the applicable safety standards and minimal requirements for sale or distribution within North America.
IP_SUISSE	Environmental	High quality products which are produced environmentally friendly and in line with the animal needs.
ISCC	Sustainability	ISCC (International Sustainability and Carbon Certification) is a voluntary certification standard to support the shift towards the circular economy and bio-economy. This label can be used by ISCC system users with a valid ISCC certificate or that are certified under an ISCC group certification. ( <a href="https://www.iscc-system.org/">https://www.iscc-system.org/</a> )
ISCC_SUPPORTING_THE_BIOECONOMY	Sustainability	ISCC (International Sustainability and Carbon Certification) is an independent multi-stakeholder organisation providing a globally applicable certification system for the sustainability of raw materials and products. This label can be used for products linked to bio-circular materials. Bio-circular materials are materials made from biological waste and residues. This logo can also be used for mixed products linked to bio-circular and bio materials. ( <a href="https://www.iscc-system.org/process/marketing-with-iscc/">https://www.iscc-system.org/process/marketing-with-iscc/</a> )
ISEAL_ALLIANCE	Sustainability	ISEAL is the global association for sustainability standards. They develop guidance and facilitate coordinated efforts to improve their members' effectiveness and scale up their social and environmental impacts.
ISO_QUALITY	Conformance	Products bearing this certification are certified by a 3rd party ensuring they follow the ISO standards. ISO standards give world-class specifications for products, services and systems, to ensure quality, safety and efficiency. They are instrumental in facilitating international trade.
IVN_NATURAL_LEATHER	Environmental	Naturleder is an IVN ( Internationaler Verband der Naturtextilwirtschaft e. V.) standard. This is the only standard for eco-friendly leather products in Europe. All products certified with this standard offer a high level of ecology and quality.
IVN_NATURAL_TEXTILES_BEST	Environmental	This IVN ( Internationaler Verband der Naturtextilwirtschaft e. V.) quality seal, well known within Europe, currently sets the strictest ecological standard for textile production at the highest technical level currently feasible. BEST reflects the

		standards for eco-friendly textiles developed by the International Association of Natural Textile Industry (IVN) since 1990 and reviews the entire textile production chain both in terms of ecological standards and in terms of social accountability.
IVO_OMEGA3	Sustainability	International Verified Omega-3 is an independent not-for-profit organization whose goal is to: 1) increase consumer confidence in the quality of marine oils (including fish oils) rich in omega-3s, 2) help consumers identify and select the best omega-3 products for their health, 3) to advocate for and support responsible marine stewardship and the long term sustainability of fish populations and habitat around the world.
JAS_ORGANIC	Organic	Japanese Agricultural Standards are standards for the agriculture industry maintained by the Japanese Government. They are comparable to Japanese Industrial Standards but for food and agricultural products. Once a product has passed tests conducted by government-backed rating bureaus the JAS seal (right) is appended to the product. In this case, the trademark is applied to agricultural products which conform to organic JAS.
JAY_KOSHER_PAREVE	Diet	Jay Kosher Pareve Certification
JODSALZ_BZGA	Diet	The "Jodsiegel" were built up by the Federal Centre for Health and Education (BZgA) on behalf of the Federal Ministry of Health. The seal is provided on packages of products by the food manufacturer, when the products made with iodized salt. With the help of the label, consumers can see the use of iodized salt directly. Regardless of where you are in the certification process, our staff is committed to providing you with excellent customer service and technical assistance to ensure that your certification experience is educational, transparent and timely.
ORGANIC_100_CONTENT_STANDARD	Organic	The Organic Content Standard (OCS) relies on third-party verification to verify a final product contains the accurate amount of a given organically grown material.
ORGANIC_COTTON	Organic	Organic cotton is grown without the use of toxic and persistent pesticides, fungicides and synthetic fertilizers. *No formaldehyde is used in finishing product. *These all impact our environment and the people who have to farm the cotton as well. The organic cotton is a kinder choice to the earth and to the workers. *Organic cotton has not been exposed to metals and chemicals, and this likely gives the fabric lasting strength over time. *Organic cotton has strict standards in the way it is manufactured. We feel good about giving our dogs and yours a fabric that is grown, processed and dyed in a rigorous manner, purchased from excellent sources that meet the certification requirements of organic materials.
ORGANIC_TRADE_ASSOCIATION	Diet	Organic Trade Association on behalf of their membership, promotes and protects organic agriculture and trade through legislative and regulatory advocacy in Canada and US.
ORIGIN_OF_EGGS	<Blank>	The label indicates the "Origin of eggs - approved by KAT". The label guarantees the actual origin of eggs used for egg products or food production. Egg products with this label may only be produced from eggs from KAT-certified laying farms. This means that only KAT eggs may be used for the production of KAT egg products. This is the only way to guarantee a cross-stage traceability throughout the entire process chain from the laying farm to the egg product factory and the food industry.

		<p>The Origine France Garantie certification was created in June 2010 following the publication of Yves JÃ©go's report on the France brand. The certification, simple and understandable by all, is the result of a collective approach of actors who wish to work together to promote the "produce in France" and the valorization of industrial and artisan know-how. The Pro France association which promotes Origine France Garantie is made up of business leaders supporting this initiative. Its goal is: Give clear and precise information to the consumer about the French origin of the products. Make known the companies that manufacture in France. The Origine France Garantie certification distinguishes itself from other mentions such as "made in France", "designed in France", "Made in France" ... which are self-declarative and too loose. Origine France Garantie is the only certification that certifies the French origin of a product. It is transversal (all sectors combined) and indisputable (certification, mandatory, is carried out by an independent certifying body). The Origine France Garantie certification ensures consumers traceability of the product by giving a clear and objective indication of origin. Certification is achieved through two cumulative criteria that companies must meet to obtain it: Between 50% and 100% of the unit cost is French. The product takes its essential characteristics in France.</p>
ORIGINE_FRANCE_GARANTIE	All	
ORTHODOX_UNION	Organic	Orthodox Union Certification
		Oregon Tilth is a leading nonprofit certifier, educator and advocate for organic agriculture and products since 1974. WHOLE_GRAIN_100_PERCENT_STAMP	Diet	The Whole Grain 100 Percent Stamp is a program of The Whole Grain Council. The Whole Grains Council helps consumers find whole grain foods and understand their health benefits; helps manufacturers and restaurants create delicious whole grain foods; and helps the media write accurate, compelling stories about whole grains. If a product bears the 100% Stamp, then all its grain ingredients are whole grains. There is a minimum

		requirement of 16g (16 grams) “ a full serving “ of whole grain per labelled serving, for products using the 100% Stamp.
WHOLE_GRAIN_BASIC_STAMP	Diet	The Whole Grain Basic Stamp is a program of The Whole Grain Council. The Whole Grains Council helps consumers find whole grain foods and understand their health benefits; helps manufacturers and restaurants create delicious whole grain foods; and helps the media write accurate, compelling stories about whole grains. If a product bears the Basic Stamp, it contains at least 8g (8 grams) “ a half serving “ of whole grain, but may also contain some refined grain. Even if a product contains large amounts of whole grain (23g, 37g, 41g, etc.), it will use the Basic Stamp if it also contains extra bran, germ, or refined flour.
WHOLE_GRAIN_COUNCIL_STAMP	Diet	The Whole Grain Stamp is a certification symbol from the Oldways Whole Grains Council that communicates the gram amount of whole grain in a product. There are three different versions of the Whole Grain Stamp that can appear on packages (the 100% Stamp, the 50%+ Stamp, and the Basic Stamp), depending on what percentage of the grain ingredients are whole grain (or in Canada, what percentage of the product weight is whole grain). <a href="http://wholegrainscouncil.org/whole-grain-stamp">wholegrainscouncil.org/whole-grain-stamp</a>
WHOLE_GRAINS_50_PERCENT_STAMP	Diet	If a product bears the 50%+ Stamp, then at least half of its grain ingredients are whole grain. There is a minimum requirement of 8 grams “ a half serving “ of whole grain per labelled serving, for products using the 50%+ Stamp.
